

Driven by Performance™

THE BIG BRUTE 4000 PSI @ 4.0 GPM

THE BIG BRUTE

This powerful compact mobile washing system can be used as a portable or stationary unit. Grease, oil and dirt contaminants are easily emulsified with hot water, offering improved results for an efficient cleaning process.

Crafted to provide ease of use and maintenance, SIMPSON® commercial/industrial pressure washers are well known within the industry for their engineering, quality and performance.

Pump:

- Direct drive
- COMET industrial triplex pump
- Overpressure safety relief valve

Frame:

- Formed heavy gauge steel base
- 1.5" round tube structural steel
- Powder coated finish for corrosion resistance

Components:

- Rocker switch, thermostat control and hour meter
- Resettable overload breaker switch
- High temperature safety switch

Unit Includes:

- 48" Insulated grip wand with 1/4" quick connect
- 3/8" x 50' steel braided Armor Hose™
- 0°, 15°, 25°, 40° and soap quick connect nozzles

Options:

- Wheel kit
- Downstream detergent injector
