

Driven by Performance™

THE MINI BRUTE 1500 PSI @ 1.8 GPM

THE MINI BRUTE

The SIMPSON® Mini-Brute is designed for the farm, job shop or detail specialist. A stable stance and a compact low profile enables the SIMPSON® Mini Brute 1518 to be easily transported. Powered by a 120 Volt AC induction motor/pump system and burner assembly, this highly efficient hot water pressure washer quickly heats the water to speed up the cleaning of oil, grease and other contaminants from tough surfaces. The Mini-Brute is the machine of choice for restaurant docks, range hoods, barns, stalls, and other environments that need the cleaning power of hot water.

Crafted to provide ease of use and maintenance, SIMPSON® commercial/industrial pressure washers are well known within the industry for their engineering, design, quality and performance.

Pump:

- Triplex pump
- Adjustable unloader
- Overpressure safety relief valve

Frame:

- 1" tube design
- Powder coated finish for corrosion resistance
- 13" premium pneumatic tires for easy portability

Components:

- 120 volt burner system
- Efficient diesel-fired burner and schedule 80 coil pipe

Features:

- 1/2" Schedule 80 coil piping
- Stainless steel coil cover
- Isolated pump & engine plate with vibration dampers

Unit Includes:

- 36" Insulated grip wand with 1/4" quick connection
- 3/8" x 50' steel braided Armor Hose™
- 0°, 15°, 25°, 40° and soap quick connect nozzles
- Downstream detergent injector
- 15 amp high limit switch
- 35' GFCI Cord
